DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-5, 9-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Karasiuk-6,695,853.

Karasiuk-'853 (Fig. 1 and 6, for example) discloses abrading structure 24 (col. 6, lines 18-35), fluid source 70 of lotion or vitamin, and optionally fluid with abrasive particles (col. 7, lines 17-58).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 6-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Karasiuk-6,695,853.

As to claims 6-8, Karasiuk-'853 substantially discloses a method of dermabrasion as recited in the claims, except for an acid such as a citric, lactic, glycolic, alphahydroxy or trichloroacetic acid. However, these chemical substances are well known for a skin treatment. It would have been obvious to one of ordinary skill in the art to use the chemical substance as recited in the claims for a skin treatment.
